Aims and Scope

The *Journal of African Earth Sciences* is an international interdisciplinary journal devoted to all aspects of research related to the African continent and neighbouring regions. Papers incorporating the results of research on regional geology of the African cratons and mobile belts, economic geology, geochemistry, geophysics, structure, analysis of sedimentary basins and Quaternary geology are featured.

In addition the journal will include "Communications" i.e. short articles announcing some aspect of new research, including field reports, new data or research in progress. "Letters" and "Comments" on controversial topics and "Book Reviews" are also invited.

Publishing, Subscription and Advertising Offices

Elsevier Science Ltd, The Boulevard, Langford Lane, Kidlington, Oxford OX5 1GB, U.K. Tel: (+1865) 84300. Fax: (+1865) 843010.
